

Garden measuring sheet

Measure first. Choose your kit with confidence.

Three simple steps

1

Walk the boundary
Measure every fence or wall section that needs coverage.

2

Mark awkward spots
Note gates, corners, sheds, trees and changes in height.

3

Add it together
Choose the next kit size above your total boundary length.

Your boundary measurements

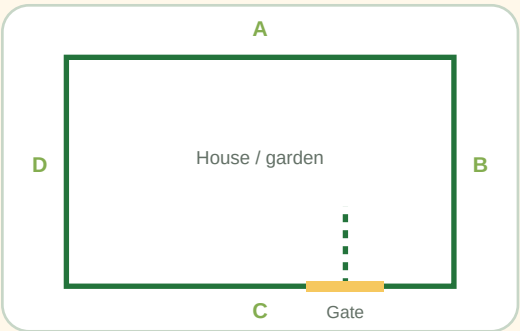

Use one row for each straight section. Measure in metres.

Section	Length	Notes / obstacle
A		
B		
C		
D		
E		
F		

TOTAL BOUNDARY LENGTH

m

Sketch your garden

Mark what you have

- ☐ Internal corners
- ☐ External corners
- ☐ Gate
- ☐ Concrete posts
- ☐ Uneven height
- ☐ Shed / tree nearby

Choose the next suitable kit size

Allow a little extra for corners and awkward joins. Check current product details before ordering.

Kit	Brackets	Mesh supplied	Corner extenders
10m	5	10.5m	2
15m	7	15.5m	3
20m	10	21.0m	4
26m	13	27.0m	4
30m	15	31.5m	5
36m	18	36.5m	5

Still unsure? Send us your measurements or garden photos before you drill.
